XM Radio is very useful to me during my travels and I benefit greatly from listening to its stations and its traffic and weather channels. I pay for these services because I want to and not because I have to. I do not think that it should be up to the National Association of Broadcasters to determine what I as a paying subscriber is permitted to hear. I urge the FCC to reject NAB's petition 04-160 and I support XM's ability to provide the kind of programming that I deserve, demand and pay for.
